

Spas

Spas are a wonderful way to relax and restore equilibrium. Jaquar's spa models are technological marvels whose 'well being circuits' comprise of various seats and a common footrest in the centre. Each seat is strategically fitted with different types of massage jets in various positions, oriented to massage different parts of the body. By moving from one seat to the other, one can enjoy a complete and satisfying massage that stimulates and relaxes all parts of the body. Cushioned headrests, ergonomic seats and a host of high performance features make this the ultimate home spa experience.

Why Jaquar Spas?

More economy

An array of energy efficient technologies make our spas more economical to run and easier to enjoy more often without worrying about power consumption.

Cleaner, healthier water

Unlike swimming pools, Jaquar spas don't use harsh chemicals that can be harmful for the skin. Our spas feature advanced water treatment technologies to ensure the cleanest, clearest water.

A superior experience

Jaquar spas have superior hydrotherapy performance and features that are usually reserved for the world's most expensive spas.

Guaranteed to last longer

Every Jaquar spa is hand crafted using industry-leading techniques and materials, which is why we can guarantee the spa shell for 10 years.

Easier to maintain

Jaquar spas give you the ultimate in easy care spa ownership without needing to spend much time on maintenance, or have a degree in chemistry to enjoy crystal clear water.

Features

Technologies that save energy and money

To let you enjoy using them without worrying about the power bill, Jaquar spas come with a whole range of energy efficient technologies.

Cabinet Insulation

Jaquar spas have insulation in the perimeter of their cabinets to maintain the warmth of the water, and the spa's plumbing and equipment, further reducing your energy costs.

Intelligent Thermal Regulation

Allows the spa to tune itself to its environment, day-to-day and season-to-season, thus reducing your heating costs by up to 20%.

Smart meter ready

Using Power Save software, Jaquar spas can be designed to do the filtering and heating when power costs are at their lowest. You can tailor the operation of your Jaquar spa to take advantage of smart meter technology and reduce your running costs.

Micro Filtration

The top priority is to remove waterborne contaminants.

Hydroflow jets

A Jaquar spa's hydroflow jets are designed to maximise jet pressure and provide a world-class hydrotherapy experience giving different massage action in each seat.

Ergonomic design

Jaquar spas are designed to maximise your comfort. Jets are positioned to massage tired muscles. The controls are within easy reach. And relaxation comes automatically.

Easy to operate

Jaquar spa control systems are intuitive and easy to operate and offer maximum flexibility and control. The top side panel controls most functions with one touch of a button. More advanced controls can be accessed through the simple English menu functions.

Two longer seats

To avoid arguments over who gets the spa's lounger (usually the most comfortable and most coveted seat in the spa), most Jaquar spas have two luxurious hydrotherapy loungers.

Individual pressure control

To ensure complete satisfaction for all, each seat in your Jaquar spa can be controlled with the seat's pressure control dial. In addition, most jets can be individually controlled, directing pressure to where you need it most.

Dynamic lighting options

Flood lighting, jet lights, backlit drink holders and water features, waterline illumination and access lighting can all be added to your Jaquar spa to enhance your experience. Lighting programs can be controlled using the spa's topside controller.

Neck therapy collar

Optional on most Jaquar models, the neck therapy collar incorporates jets specially designed to eliminate stress and tension carried in the neck and shoulder area. Opt for the neck therapy collar to soothe away the stresses of your day.

Spa Health Indicator

Your Jaquar Spa is also equipped with an early warning 'Spa Health Indicator' light. This light comes on to indicate that the product needs service, maintenance or attention to verify any fault that may arise, and to prevent chances of damage.

POLARIS 2200 x 2200 x 900 (6 Seater)

NEW

JSP-WHT-SPAPOLARIS6S

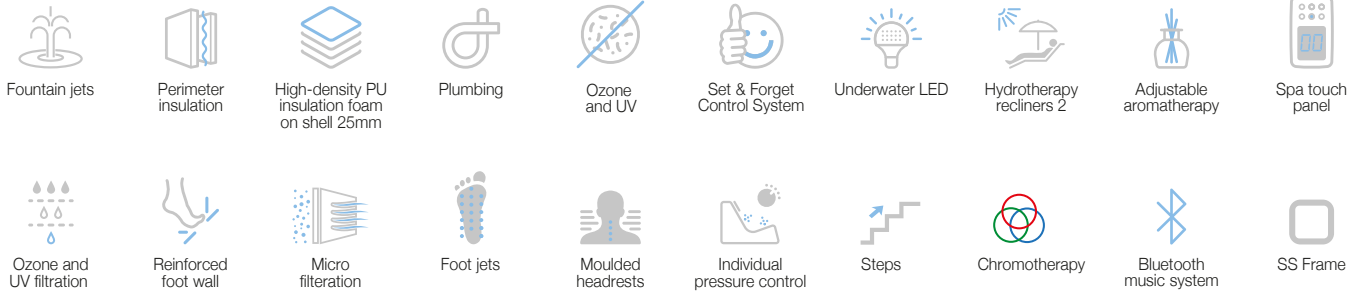

POLARIS SPA with Stairs panel,
Thermic Cover

JETS :
